

2022 Super Fest Basketball COVID-19 Protocols

Update: July 5, 2022

Given the increasing COVID-19 cases, we have outlined below the relevant protocols and safety measures that will be in place to prevent the spread of COVID-19.

Protocols for all Super Fest participants and volunteers: All Super Fest participants and volunteers will be required to present proof of a negative COVID test taken within the past 72 hrs, take a free rapid COVID-19 test administered by Mobile Vax, or be able to sign a waiver that says they have had COVID in the past 90 days and do not have any symptoms. All participants and volunteers must receive a negative test result or sign the waiver mentioned above to enter.

All Super Fest participants are also asked to wear masks at all times except to drink water.

Protocols for Super Fest spectators: Spectators are welcome to watch the weekend's events from the bleachers, however, we ask that masks be worn at all times. Masks will be made available to spectators upon request. Spectators wishing to eat or drink should do so outside of the bleacher section.

Protocol Updates and Changes to these measures may be made in the weeks leading up to the event, pursuant to public health guidelines in the state of Illinois. We are committed to providing a safe, comfortable environment for all; should you have any questions, comments or concerns regarding these protocols, please contact us via email.

Please Note: For any volunteer, spectator or participant that feels that they may be developing symptoms of COVID-19 during the event, please report this immediately and event staff will assist with local testing and potential isolation.
